Discussion Questions

Around the circle:)A question to get everyone talking and involved)

What is one way you'd like to see local taxpayer dollars be spent and why?

Select Few:)Questions designed for a few group members to offer personal experience or vulnerable insights.)

In what ways have you felt "trapped" by the local or national economy? (Or even your personal financial circumstances) What or who helped you to find freedom?

What assumptions do you about the government? The Church? Your Neighbors? Your own family?

How do these assumptions encourage or discourage (economic) partnership?

What is the role of the government in the wellbeing of people?

What is the role of the church?

Dig Deep: (A question that may or may not be answered in session, but should be encouraged for members to wrestle with all week.)

Identify an organization or individual that you would consider "economically advantaged". Who may directly or inadvertently be exploited or oppressed on the other side of that advantage?
